## What is the Year 12 Marks Maximiser Program?

The Marks Maximiser Program (MMP) is an intensive revision program in the July Holidays that helps Year 12 students prepare for their Trial and HSC exams. These two exams collectively count for about 70% of your final HSC mark, so it is important to do well in these exams if you are looking to do well in the HSC.

The MMP provides a concise, comprehensive and effective method of revision. We review every dot point in the syllabus in a question based format, with our teachers showing students exactly how to answer the questions, with sample solutions and marking guidelines from the No 1 students in the state, so you know what it takes to score Full marks.

Our Marks Maximiser Program provides total preparation for your examinations. Although many places offer 10-12 hour revision courses, we believe that this is not sufficient to score the best marks, and will probably revise the 60% that you already know. In contrast, Talent 100 Marks Maximiser Program will prepare you completely for your trials. And whilst MMP is always result-focused, it is taught in a fun, interactive environment with a qualified Talent 100 teacher.

## What are the Key Features of the Marks Maximiser Program?

- + Complete review of the theory and syllabus
- + Provides comprehensive practice with exam-style questions
- + Highlights common pitfalls and ways to eliminate costly and unnecessary careless mistakes
- + Shows students how to get FULL marks in harder questions (5,6,7 marks), by providing model answers from students who came 1st in the State.

All programs come with a 150 page workbook that contains a concise summary of the syllabus, as well as HSC and Trial Style Questions – an indispensable study guide. Our teaching methods will help you consolidate your understanding, and most importantly show you how to score FULL MARKS.
